

C-SPEECH
by Crescendo

C-SPEECH

C-Speech is a Clinical Speech Recognition application designed by Crescendo and built on Deep Neural Network (DNN) & Microsoft technologies.

Dictate, navigate, review and edit clinical systems entirely by voice

Plug & play, no training required!

No user profiles, works with all accents

Increase productivity with personalised AutoTexts and custom commands

State-of-the-art Speech at a fraction of the cost of competitive systems

Trust Crescendo with your Speech Recognition solution to ensure that it is truly tailored to your organisation's and personal requirements.

30-day free trial
on all
Speech solutions!
