

Outsourced Transcription

For Professionals

Crescendo have partnered with leading Outsource Transcription Providers to offer our customers access to high quality transcriptionists based in the UK.

Desktop integration

No need for administrators to be involved in the upload. Integration and automation allows work to be sent offsite automatically based on user, work type or priority.

Flexible terms & pricing

No fixed terms or contracts unless you need them. Pay-As-You-Go, per line or volume price bands to suit your requirements.

Safe & secure

Dictations uploaded for transcription are protected using the latest encryption technologies to ensure the maximum protection of your sensitive data.

Complete control

Track every dictation which has been sent for transcription, its current progress and when it was returned. Generate activity reports for billing comparison.

Review & edit

Transcribed text can be viewed online prior to download or returned to you as documents for uploading into your Clinical System.

* the above features are only guaranteed when using a Crescendo Transcription Partner

Consider Speech Recognition

Crescendo offers instant voice-to-text solutions with incredible ROI!

Manual and automatic transcription options

Automatic

Dictations can be outsourced automatically based on work type, priority or even turnaround time.

Manual

Upload dictations for typing as and when you need to via the transcription portal.
